Ataawy, June 23.

About 4 o'clock this P. M. a destructive fire broke out in the lumber yard of Messrs. Bullock & Many, on Water and Orange streets. The fire took fram the blacksmith's shop on the south corner of the yard, and a high wind prevailing from the south the fishes spread northward with great rapidity. Acjoining the lumber yard was Treadwells furniture factory, Luther's extensive coal yard, and the freight depots of the Central Railroad.

The efforts of the chief engineer were directed to the saving of this property and to prevent the spreading of the fiames beyond the lumber yard, but the heat was so intense as to render it almost impossible for the firement to work the engines.—The greatest exertions, however, are being used to prevent the fire from spreading, but up to the present time \$50,000 worth of property has been destroyed, with four or five dwellings. The fire is still raging.

938 P. M.—It is now certain that the fire can Builders & Architects. CORLETT & CUBBON MASTEP
